8	The Qubed indicator (TradingView)	build · on-brand	Invite-only / protected publish (source hidden, per-student access)	P2-3	build			
8	The Qubed indicator (TradingView)	build · on-brand	Easy settings panel + smart defaults (auto dark/light out of box)	P2-3	build			
8	The Qubed indicator (TradingView)	build · on-brand	Live setup grading on the chart	P2-3	build			
9	CRM / sales-cycle	thin own → buy later	Track first ~50 leads in your phone — no tool yet	P1	manual			
9	CRM / sales-cycle	thin own → buy later	Thin pipeline → buy a CRM only if scale needs it	P3-4	defer			
10	Scale — coaching-coaches & merch	build / defer	Coach role + a coach's view of the Lab	P3-4	defer			
10	Scale — coaching-coaches & merch	build / defer	Shopify / merch (parked brand play)	P3-4	defer			
11	Founder craft (you — the man in man+machine)	ongoing	Record yourself coaching → review → improve	P1	craft			
11	Founder craft (you — the man in man+machine)	ongoing	Practice the Qubed debrief voice (Suzy-style honest read)	P1	craft			

Legend

Tag	Meaning
P1	now — manual close phase, do these to get your first paying coached client
P2	campaign / self-serve — the coupled milestone (Stripe + credits + AI funnel)
P3-4	scale — later
GATE	a decision or hard gate that blocks downstream / has lead time
DONE	already banked in the goldmine
Critical path	Area 1 → 2 → 3 (product core → Lab → funnel). Start journal schema first.
How to use	Sort by Phase to see your current work pool; filter an Area to focus; drive the Status column.
